Omen X by HP

Jonathan Romanov Moore FRSA

Royal Society of the Arts Research Fellow
Johnson City-Kingsport-Bristol Area

Summary

I'm using Family Tree DNA. I'm a Royal Society of the Arts Fellow, I worked on Steven Spielberg's movie Artificial Intelligence Macromedia Flash Website, help ship Macromedia Studio 8 with a Macromedia patent portfolio. My first investment was at Moors and Cabot and Anne Hathaway the actress is my first soulmate. I licensed QuickTime source code in 2001 from Apple Computer. I'm a retired Microsoft Gold Partner and worked on Microsoft MAUI in college in 2009 where I was featured in US and world report as a 30 under 30 millionaire with Edward Jones on admissions to UVa-Wise in the Founders Society now with a UVa Computer Science Degree and 25 years in the computer industry. Straight A college graduate with a Scholar Award and Microsoft SQL Server Sales Award. I'm also a Microsoft MVP. With lifetime affiliate TrainSec Microsoft Windows Internals Certification. Made a Human Genome Database in college from esembl text files. I have \$73 million in M&A owners equity for business. I did well on the market. I just need a IPO to turn equity into cash through a IPO. I'm a direct decedent of the famed Charles Darwin, Jimmy Buffet, Nicolaus Copernicus, the Today Show's Ann Curry, Francis Crick and Jesse James; Curtis Hathaway, Patricia Underwood, Donny Rose, Kristen Hamilton, Morgan Gates, Ann Turner, Ruthie McCulley, Harold Stoker, Steve McCready and Pepin the Short. Bill Gates taught me not to let your company drown in cash and lets keep it that way. I was born on April 24th 1978. Microsoft Windows Server 2003 was released on my birthday.I've been a Microsoft Knowledge worker for 25 years collecting source code and building Operating Systems. I had a MSDN Help technical case in 2003 to put the MSDN Library online. I would have you in Operating Systems Theory if it wasn't for Facebook in 2004. My family drafted a irrevocable trust in 2019. Written and copyright by Jonathan Moore 2026

Experience

Unisys

Shareholder

August 2025 - Present (1 year 1 month)

J. Presper Eckert and John Mauchly built the ENIAC (Electronic Numerical Integrator and Computer) at the University of Pennsylvania's Moore School of Electrical Engineering between 1943 and 1946. Put all my money in the first Open Source Company Unisys. The first example of free and open-source software is believed to be the A-2 system, developed at the UNIVAC division of Remington Rand in 1953, which was released to customers with its source code.

Hewlett Packard Enterprise

4 years 1 month

Shareholder

August 2024 - Present (2 years 1 month)

Palo Alto, CA
